Mr. Ray Connaly
Le Claire, Iowa

Dear Mr. Connaly,

Just recently we learned that the electric rates for the building in which the Le Claire Library Station is located have been changed from residential to commercial due to the fact that the lower floor is occupied by the library. In order that the tenants living upstairs won't have to pay the commercial rate the library is going to put in another meter for the library alone. This morning I talked to Mr. Al Priest of Princeton about the change, and he suggested that I get in touch with you to do the work. I would appreciate it very much if you could go in there and look over the situation and give us an estimate of what it will cost us to do the necessary wiring. I tried to call you this noon after I'd talked to Mr. Priest, but I could not get you, and as I am going to have to leave this afternoon I thought I could accomplish the same purpose with a note. Mrs. Stuff is at the library on Friday and Tuesday afternoons; but I'm sure Mrs. Nielson, the tenant upstairs will let you into the back room there where the boxes are located. The sooner you can take care of it, the better. I will get in touch with you again promptly when I have your estimate.

Yours very truly,

Elizabeth B. Hage
Librarian
